DETAILED ACTION

Claim Rejections - 35 USC § 103

- 1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 2. Claims 1-8 & 17-154 are rejected under 35 U.S.C. 103(a) as being unpatentable over Choi (U.S. 6,629,131B1) and Flynn et al (U.S. 6,618,747B1).
- 3. As per claims 1, 17, 57, 80, 102, 124 & 142 Choi disclosed a method for verifying whether e-mail sent by a sending party was delivered to the intended recipient, said method comprising: a) acquiring an e-mail for transmission to a target recipient; b) transmitting said e-mail from a sender computer that is connected to the communications network; c) delivering said e-mail to a recipient e-mail address, said e-mail address associated with a recipient computer (col.2, lines 59-67), f) sending said confirmation of receipt notice to said sending party, wherein, the discovered recipient data contained in said confirmation of receipt notice can be compared to delivery information associated with said intended recipient in order to verify if the e-mail was delivered the intended recipient (col.3, lines 1-30). However Choi did not explicitly disclose that upon the occurrence of an access event, discovering recipient data that is associated with a recipient party; generating a confirmation of receipt notice wherein the discovered recipient data is Included in said confirmation of receipt notice. Flynn in the same field of endeavor disclosed

Art Unit: 2143

that upon the occurrence of an access event, discovering recipient data that is associated with a recipient party; generating a confirmation of receipt notice wherein the discovered recipient data is Included in said confirmation of receipt notice (col.6, lines 53-65).

It would have been obvious to one in the ordinary skill in the art at the time the invention was made to have incorporated the discovered recipients data in the confirmation receipt as disclosed by Flynn in a method of verifying whether e-mail was delivered to the intended recipient as disclosed by Choi in order to make the e-mail delivery system more secure and protected by giving the sender the ability to know exactly who the e-mail content was delivered to.

- As per claims 2, 18, 65, 87 & 106 Choi-Flynn disclosed the method as in claim 1, 4. wherein the discovering step includes retrieving from a computer associated with the recipient party a pre-recorded recipient data file containing pre-recorded recipient data (choi, col.3, lines 1-30).
- As per claims 3, 20, 21, 4, 59, 63, 66, 58, 81, 84, 85, 86, 88, 89, 102, 104, n108, 109, 111, 5. 112, 143, 144, 146, 147, 149, 151, 153, 6, 7, 114, 118, 119, 120, 91, 92, 94, 8, 38, 41, 42, 43, 44, 46, 48, 56, 25, 26, 27, 30, 32, 34, 43, 53, 67, 69, 70, 76, 129-141 & 147 Choi-Flynn disclosed the method as in claim 1, further comprising the step of obtaining recipient party identity information from the recipient party as a requisite condition for permitting access to the recipient e-mail address, and wherein the discovering step includes retrieving the recipient party identity information, and wherein tire generating step includes such recipient party identity information within the data contained in the confirmation of receipt notice (Flynn, col.6, lines 53-65).

Application/Control Number: 09/978,224 Page 4

Art Unit: 2143

As per claims 5, 61, 60, 82, 83, 105, 107, 50, 115, 116, 117, 95, 49, 19, 22, 28, 29, 35, 23, 24, 123, 62, 73 & 79 Choi-Flynn disclosed the method as in claim 1, wherein the discovering step includes electronically tapping a remote connection between the recipient computer and a remote user computer operable by the recipient party to gain remote access to the recipient e-mail address (Flynn, col.5, lines 46-67 & col.6, lines 1-21).

- 7. As per claims 31, 33, 39, 40, 45, 47, 54, 55, 110, 113, 121, 122, 68, 71, 77, 78, 148, 150, 152 & 154 Choi-Flynn disclosed the system as in Claim 20, wherein said identity information pertains to biometric identification, password identification, a computer generated user code, or a combination thereof (Flynn, col.5, lines 46-67 & col.6, lines 1-21).
- 8. As per claims 51, 52, 36, 37, 74, 75, 125, 126, 127 & 128 Choi-Flynn disclosed the method as in. Claim 1, wherein said confirmation of receipt once is used to verify proper delivery of legal documents (Flynn, col.6, lines 66-67 & col.7, lines 1-21).

Response to Arguments

- 9. Applicant's arguments filed 16 June 2005 have been fully considered but they are not persuasive.
- 10. The applicant argued, (in the amended claims) "Choi disclosure does not teach, or suggest the step of discovering recipient data associated with the recipient e-mail address".
- 11. As to applicants arguments, please see the rejection on line 3 above.

Conclusion

12. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Asghar Bilgrami whose telephone number is 571-272-3907. The examiner can normally be reached on M-F, 8:00-5:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Wiley can be reached on 571-272-3923. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
